NOTICE OF DATA BREACH

Dear Valued Customer:

We are writing to inform you that certain information you provided in making a reservation at one of the hotels we manage within the past several months may have been impacted by a data incident. The data incident did not occur on our computer systems, but on the computer systems of Sabre Hospitality Solutions, a third party that provides reservation and other services to hotels, online travel agencies, and booking services.

Although the breach did not affect our systems, we are required by law to send you this notice.

The privacy and protection of our customers' information is a matter we take very seriously and, therefore, we recommend that you closely review the information provided in this letter for some steps that you may take to protect yourself against potential misuse of your information.

What Happened?

The Sabre Hospitality Solutions SynXis Central Reservations system (CRS) facilitates the booking of hotel reservations made by consumers through hotels, online travel agencies, and similar booking services. Following an examination of forensic evidence, Sabre notified us on June 6, 2017 that an unauthorized party gained access to account credentials that permitted unauthorized access to unencrypted payment card information, as well as certain reservation information, for a subset of hotel reservations processed through Sabre's reservation system.

The investigation determined that the unauthorized party first obtained access to payment card and other reservation information on August 10, 2016. The last access to payment card information was on March 9, 2017.

What Information Was Involved?

The unauthorized party was able to access payment card information for some hotel reservations, including some or all of the following: cardholder name; card number; card expiration date; and, potentially, card security code. The unauthorized party was also able, in some cases, to access certain information such as guest name, email, phone number, address, and other information. Information such as Social Security number, passport number, or driver's license number was not accessed.

What We Are Doing

To mitigate the data incident on its system, Sabre engaged a leading cybersecurity firm to support its investigation. Sabre also notified law enforcement and the payment card brands about this incident.

It is important to note that this data incident only affected Sabre's reservation system and did not affect our systems.

What You Can Do

You should remain vigilant for incidents of fraud and identity theft by regularly reviewing your account statements and monitoring free credit reports for any unauthorized activity. If you discover any suspicious or unusual activity on your accounts, be sure to report it immediately to your financial institutions, as major credit card companies have rules that restrict them from requiring you to pay for fraudulent charges that are timely reported.

In addition, you may contact the Federal Trade Commission (FTC) or law enforcement, such as your state attorney general, to report incidents of identity theft or to learn about steps you can take to protect yourself from identity theft. You can contact the FTC at:

Federal Trade Commission
600 Pennsylvania Avenue, NW
Washington, DC 20580
(877) IDTHEFT (438-4338)
https://www.identitytheft.gov/

If you find that your information has been misused, the FTC encourages you to file a complaint with the FTC and to take these additional steps: (1) close the accounts that you have confirmed or believe have been tampered with or opened fraudulently; and (2) file and keep a copy of a local police report as evidence of the identity theft crime.

Obtain Your Credit Report

You should also monitor your credit reports. You may periodically obtain credit reports from each nationwide credit reporting agency. If you discover inaccurate information or a fraudulent transaction on your credit report, you have the right to request that the credit reporting agency delete that information from your credit report file.

In addition, under federal law, you are entitled to one free copy of your credit report every 12 months from each of the three nationwide credit reporting agencies. You may obtain a free copy of your credit report by going to www.AnnualCreditReport.com or by calling (877) 322-8228. You also may complete the Annual Credit Report Request Form available from the FTC at https://www.consumer.ftc.gov/articles/pdf-0093-annual-report-request-form.pdf, and mail it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348-5281. You may also contact any of the three major credit reporting agencies to request a copy of your credit report.

Place a Fraud Alert or Security Freeze on Your Credit Report File

In addition, you may obtain information from the FTC and the credit reporting agencies about fraud alerts and security freezes. A fraud alert can make it more difficult for someone to get credit in your name because it tells creditors to follow certain procedures to protect you, but it also may delay your ability to obtain credit. If you suspect you may be a victim of identity theft, you may place a fraud alert in your file by calling just one of the three nationwide credit reporting agencies listed below. As soon as that agency processes your fraud alert, it will notify the other two agencies, which then must also place fraud alerts in your file. An initial fraud alert will last 90 days. An extended alert stays on your file for seven years. To place either of these alerts, a consumer reporting agency will require you to provide appropriate proof of your identity, which may include your Social Security number. If you ask for an extended alert, you will have to provide an identity theft report.

Also, you can contact the nationwide credit reporting agencies regarding if and how you may place a security freeze on your credit report. A security freeze prohibits a credit reporting agency from releasing information from your credit report without your prior written authorization, which makes it more difficult for unauthorized parties to open new accounts in your name. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit cards mortgages, employment, housing, or other services. The credit reporting agencies have 3 business days after receiving a request to place a security freeze on a consumer's credit report. You may be charged to place or lift a security freeze. Unlike a fraud alert, you must separately place a credit freeze on your credit file at each credit reporting company.

IF YOU ARE A GEORGIA RESIDENT:

You have the right to obtain a security freeze on your consumer credit report.

Georgia Consumers Have the Right to Obtain a Security Freeze.

You have a right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. A security freeze must be requested in writing by certified mail or by electronic means as provided by a consumer reporting agency. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. If you are actively seeking a new credit, loan, utility, telephone, or insurance account, you should understand that the procedures involved in lifting a security freeze may slow your applications for credit. You should plan ahead and lift a freeze in advance of actually applying for new credit. When you place a security freeze on your credit report, you will be provided a personal identification number or password to use if you choose to remove the freeze on your credit report or authorize the release of your credit report for a period of time after the freeze is in place.

To provide that authorization you must contact the consumer reporting agency and provide all of the following:

(1) The personal identification number or password.

(2) Proper identification to verify your identity.

(3) The proper information regarding the period of time for which the report shall be available.

A consumer reporting agency must authorize the release of your credit report no later than fifteen (15) minutes after receiving the above information if the request is by electronic means or by telephone, or no later than three business days when a written request is submitted.

A security freeze does not apply to a person or entity, or its affiliates, or collection agencies acting on behalf of the person or entity, with which you have an existing account, that requests information in your credit report for the purposes of reviewing or collecting the account. Reviewing the account includes activities related to account maintenance. You have a right to bring civil action against anyone, including a consumer reporting agency, who improperly obtains access to a file, knowingly or willfully misuses file data, or fails to correct inaccurate file data. Unless you are a victim of identity theft with a police report or other official document acceptable to a consumer reporting agency to verify the crimes, or you are 65 or older, a consumer reporting agency has the right to charge you a fee of no more than $3.00 to place a freeze on your credit report.

Massachusetts law also allows consumers to place a security freeze on their credit reports. If you have been a victim of identity theft, and you provide the credit reporting agency with a valid police report, it cannot charge you to place, lift, or remove a security freeze. In all other cases, a credit reporting agency may charge you up to $5.00 each to place, temporarily lift, or permanently remove a security freeze. To place a security freeze on your credit report, you must send a written request to each of the three major consumer reporting agencies: Equifax, Experian, and TransUnion by regular, certified, or overnight mail at the addresses below:

The credit reporting agencies must also send written confirmation to you within five (5) business days and provide you with a unique personal identification number (PIN) or password, or both, that can be used by you to authorize the removal or lifting of the security freeze.

To lift the security freeze in order to allow a specific entity or individual access to your credit report, you must call or send a written request to the credit reporting agencies by mail and include proper identification (name, address, and Social Security number) **and** the PIN number or password provided to you when you placed the security freeze, as well as the identities of those entities or individuals you would like to receive your credit report or the specific period of time you want the credit report available. You also have rights under the federal Fair Credit Reporting Act (FCRA). These include, among others, the right to know what is in your file; to dispute incomplete or inaccurate information; and to have consumer reporting agencies correct or delete inaccurate, incomplete, or unverifiable information. For more information about the FCRA, please visit https://www.consumer.ftc.gov/articles/pdf-0096-fair-credit-reporting-act.pdf or www.ftc.gov.

In Addition, New Mexico Consumers Have the Right to Obtain a Security Freeze or Submit a Declaration of Removal

You may obtain a security freeze on your credit report to protect your privacy and ensure that credit is not granted in your name without your knowledge. You may submit a declaration of removal to remove information placed in your credit report as a result of being a victim of identity theft. You have a right to place a security freeze on your credit report or submit a declaration of removal pursuant to the Fair Credit Reporting and Identity Security Act.

The security freeze will prohibit a consumer reporting agency from releasing any information in your credit report without your express authorization or approval.

The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. When you place a security freeze on your credit report, you will be provided with a personal identification number, password, or similar device to use if you choose to remove the freeze on your credit report or to temporarily authorize the release of your credit report to a specific party or parties or for a specific period of time after the freeze is in place. To remove the freeze or to provide authorization for the temporary release of your credit report, you must contact the consumer reporting agency and provide all of the following:

1. the unique personal identification number, password, or similar device provided by the consumer reporting agency;

2. proper identification to verify your identity;

3. information regarding the third party or parties who are to receive the credit report or the period of time for which the credit report may be released to users of the credit report; and

4. payment of a fee, if applicable.

A consumer reporting agency that receives a request from a consumer to lift temporarily a freeze on a credit report shall comply with the request no later than three (3) business days after receiving the request. As of September 1, 2008, a consumer reporting agency shall comply with the request within fifteen minutes of receiving the request by a secure electronic method or by telephone.

A security freeze does not apply in all circumstances, such as where you have an existing account relationship and a copy of your credit report is requested by your existing creditor or its agents for certain types of account review, collection, fraud control, or similar activities; for use in setting or adjusting an insurance rate or claim or insurance underwriting; for certain governmental purposes; and for purposes of prescreening as defined in the federal Fair Credit Reporting Act.

If you are actively seeking a new credit, loan, utility, telephone, or insurance account, you should understand that the procedures involved in lifting a security freeze may slow your own applications for credit. You should plan ahead and lift a freeze, either completely if you are shopping around or specifically for a certain creditor, with enough advance notice before you apply for new credit for the lifting to take effect. You should contact a consumer reporting agency and request it to lift the freeze at least three business days before applying. Dear Remington Lodging & Hospitality and affiliates Customers:

Sabre is a leading technology provider to the global travel industry, and counts Remington Lodging & Hospitality and affiliates as one of our most important customers of our Sabre Hospitality Solutions (SHS) division.

SHS had a cybersecurity incident that affects you. We wanted to offer an explanation.

SHS provides reservations technology to a number of hotels. SHS had an incident in which an unauthorized party was able to obtain the credentials to an account within the SHS central reservations system and then view a subset of the hotel reservations. This was ***not*** an internal technology platform at a hotel that you stayed at, and the unauthorized use was contained to one system managed by SHS. As part of this incident, payment card information that may have been transmitted as part of the reservation booking process may have been viewed by this unauthorized user.

Sabre engaged premier cybersecurity experts to support our investigation and took successful measures to ensure this unauthorized access was stopped and is no longer possible. The investigation did not uncover evidence that the unauthorized party removed any information from the system, but it is a possibility. We have also notified law enforcement and the payment card brands.

The unauthorized party was able to access information for certain hotel reservations, including cardholder name; payment card number; card expiration date; and, for a subset of reservations, card security code (if it was provided). Social Security, passport, driver's license or other government identification numbers were ***not*** accessed.

On behalf of the Sabre team, we wish to express our sincere regret for this incident and assure you that we have taken measures to further strengthen our already-robust cybersecurity program. As a leading technology provider to the travel industry, Sabre is committed to a global, holistic security program focused on protecting its systems, their customers and consumers. As cyber threats have escalated, so too has Sabre's investment in state of the art security technology and highly qualified personnel to reassure its travel industry customers and the traveling public that Sabre addresses security with the utmost care and expertise.

Yours truly,
SABRE HOSPITALITY SOLUTIONS

NOTICE OF SABRE DATA SECURITY INCIDENT

IMPACTING GUEST PAYMENT CARD INFORMATION

Dear Valued Customer:

Remington Lodging & Hospitality, LLC and Affiliates would like to inform you that certain information you provided in making a reservation at one of the hotels we manage within the past several months may have been impacted by a data incident. The data incident did not occur on our computer systems, but on the computer systems of Sabre Hospitality Solutions, a third party that provides reservation and other services to hotels, online travel agencies, and booking services.

Although the breach did not affect our systems, we are required by law to provide you with this notice.

The privacy and protection of our customers' information is a matter we take very seriously and, therefore, we recommend that you closely review the information provided in this notice for some steps that you may take to protect yourself against potential misuse of your information.

What Happened?

The Sabre Hospitality Solutions SynXis Central Reservations system (CRS) facilitates the booking of hotel reservations made by consumers through hotels, online travel agencies, and similar booking services. Following an examination of forensic evidence, Sabre notified us on June 6, 2017 that an unauthorized party gained access to account credentials that permitted unauthorized access to unencrypted payment card information, as well as certain reservation information, for a subset of hotel reservations processed through Sabre's reservation system.

The investigation determined that the unauthorized party first obtained access to payment card and other reservation information on August 10, 2016. The last access to payment card information was on March 9, 2017.

What Information Was Involved?

The unauthorized party was able to access payment card information for some hotel reservations, including some or all of the following: cardholder name; card number; card expiration date; and, potentially, card security code. The unauthorized party was also able, in some cases, to access certain information such as guest name, email, phone number, address, and other information. Information such as Social Security number, passport number, or driver's license number was not accessed.

What We Are Doing

To mitigate the data incident on its system, Sabre engaged a leading cybersecurity firm to support its investigation. Sabre also notified law enforcement and the payment card brands about this incident.

It is important to note that this data incident only affected Sabre's reservation system and did not affect our systems.

What You Can Do

You should remain vigilant for incidents of fraud and identity theft by regularly reviewing your account statements and monitoring free credit reports for any unauthorized activity. If you discover any suspicious or unusual activity on your accounts, be sure to report it immediately to your financial institutions, as major credit card companies have rules that restrict them from requiring you to pay for fraudulent charges that are timely reported.

In addition, you may contact the Federal Trade Commission (FTC) or law enforcement, such as your state attorney general, to report incidents of identity theft or to learn about steps you can take to protect yourself from identity theft. You can contact the FTC at:

Federal Trade Commission
600 Pennsylvania Avenue, NW
Washington, DC 20580
(877) IDTHEFT (438-4338)
https://www.identitytheft.gov/

If you find that your information has been misused, the FTC encourages you to file a complaint with the FTC and to take these additional steps: (1) close the accounts that you have confirmed or believe have been tampered with or opened fraudulently; and (2) file and keep a copy of a local police report as evidence of the identity theft crime.

Obtain Your Credit Report

You should also monitor your credit reports. You may periodically obtain credit reports from each nationwide credit reporting agency. If you discover inaccurate information or a fraudulent transaction on your credit report, you have the right to request that the credit reporting agency delete that information from your credit report file.

In addition, under federal law, you are entitled to one free copy of your credit report every 12 months from each of the three nationwide credit reporting agencies. You may obtain a free copy of your credit report by going to www.AnnualCreditReport.com or by calling (877) 322-8228. You also may complete the Annual Credit Report Request Form available from the FTC at https://www.consumer.ftc.gov/articles/pdf-0093-annual-report-request-form.pdf, and mail it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348-5281. You may also contact any of the three major credit reporting agencies to request a copy of your credit report.

Place a Fraud Alert or Security Freeze on Your Credit Report File

In addition, you may obtain information from the FTC and the credit reporting agencies about fraud alerts and security freezes. A fraud alert can make it more difficult for someone to get credit in your name because it tells creditors to follow certain procedures to protect you, but it also may delay your ability to obtain credit. If you suspect you may be a victim of identity theft,

you may place a fraud alert in your file by calling just one of the three nationwide credit reporting agencies listed below. As soon as that agency processes your fraud alert, it will notify the other two agencies, which then must also place fraud alerts in your file. An initial fraud alert will last 90 days. An extended alert stays on your file for seven years. To place either of these alerts, a consumer reporting agency will require you to provide appropriate proof of your identity, which may include your Social Security number. If you ask for an extended alert, you will have to provide an identity theft report.

Also, you can contact the nationwide credit reporting agencies regarding if and how you may place a security freeze on your credit report. A security freeze prohibits a credit reporting agency from releasing information from your credit report without your prior written authorization, which makes it more difficult for unauthorized parties to open new accounts in your name. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit cards mortgages, employment, housing, or other services. The credit reporting agencies have 3 business days after receiving a request to place a security freeze on a consumer's credit report. You may be charged to place or lift a security freeze. Unlike a fraud alert, you must separately place a credit freeze on your credit file at each credit reporting company.

IF YOU ARE A GEORGIA RESIDENT:

You have the right to obtain a security freeze on your consumer credit report.

Georgia Consumers Have the Right to Obtain a Security Freeze.

You have a right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. A security freeze must be requested in writing by certified mail or by electronic means as provided by a consumer reporting agency. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. If you are actively seeking a new credit, loan, utility, telephone, or insurance account, you should understand that the procedures involved in lifting a security freeze may slow your applications for credit. You should plan ahead and lift a freeze in advance of actually applying for new credit. When you place a security freeze on your credit report, you will be provided a personal identification number or password to use if you choose to remove the freeze on your credit report or authorize the release of your credit report for a period of time after the freeze is in place.

To provide that authorization you must contact the consumer reporting agency and provide all of the following:

(1) The personal identification number or password.

(2) Proper identification to verify your identity.

(3) The proper information regarding the period of time for which the report shall be available.

A consumer reporting agency must authorize the release of your credit report no later than fifteen (15) minutes after receiving the above information if the request is by electronic means or by telephone, or no later than three business days when a written request is submitted.

A security freeze does not apply to a person or entity, or its affiliates, or collection agencies acting on behalf of the person or entity, with which you have an existing account, that requests information in your credit report for the purposes of reviewing or collecting the account. Reviewing the account includes activities related to account maintenance. You have a right to bring civil action against anyone, including a consumer reporting agency, who improperly obtains access to a file, knowingly or willfully misuses file data, or fails to correct inaccurate file data. Unless you are a victim of identity theft with a police report or other official document acceptable to a consumer reporting agency to verify the crimes, or you are 65 or older, a consumer reporting agency has the right to charge you a fee of no more than $3.00 to place a freeze on your credit report.

Dear Remington Lodging & Hospitality and affiliates Customers:

Sabre is a leading technology provider to the global travel industry, and counts Remington Lodging & Hospitality and affiliates as one of our most important customers of our Sabre Hospitality Solutions (SHS) division.

SHS had a cybersecurity incident that affects you. We wanted to offer an explanation.

SHS provides reservations technology to a number of hotels. SHS had an incident in which an unauthorized party was able to obtain the credentials to an account within the SHS central reservations system and then view a subset of the hotel reservations. This was ***not*** an internal technology platform at a hotel that you stayed at, and the unauthorized use was contained to one system managed by SHS. As part of this incident, payment card information that may have been transmitted as part of the reservation booking process may have been viewed by this unauthorized user.

Sabre engaged premier cybersecurity experts to support our investigation and took successful measures to ensure this unauthorized access was stopped and is no longer possible. The investigation did not uncover evidence that the unauthorized party removed any information from the system, but it is a possibility. We have also notified law enforcement and the payment card brands.

The unauthorized party was able to access information for certain hotel reservations, including cardholder name; payment card number; card expiration date; and, for a subset of reservations, card security code (if it was provided). Social Security, passport, driver's license or other government identification numbers were ***not*** accessed.

On behalf of the Sabre team, we wish to express our sincere regret for this incident and assure you that we have taken measures to further strengthen our already-robust cybersecurity program. As a leading technology provider to the travel industry, Sabre is committed to a global, holistic security program focused on protecting its systems, their customers and consumers. As cyber threats have escalated, so too has Sabre's investment in state of the art security technology and highly qualified personnel to reassure its travel industry customers and the traveling public that Sabre addresses security with the utmost care and expertise.

Yours truly,
SABRE HOSPITALITY SOLUTIONS
